

Springvale Day Respite Program

Springvale

About Springvale Day

Benetas Springvale Day Respite Program provides respite services for older people and their carers.

Located at the Anglican Church of the Ascension in Springvale, our day program provides a warm, caring and stimulating environment, which allows clients to keep socially active and connected to the community.

Day programs

Our weekday programs provide you with a caring environment where clients can engage in activities, enjoy meals and outings and socialise with others.

On selected days, our service caters specifically for the Vietnamese speaking community. Vietnamese speaking staff work in the Benetas Springvale Day Respite Program.

Day programs are run both at the facility and in the community.

Our Staff

All Benetas Springvale Respite Program staff are carefully selected for their qualifications, experience and commitment to supporting older people to live happy, healthy lives.

They are focused on our clients' needs and are driven by our values of respect, responsibility, community and spirit.

The bonds that form between our staff and clients are strong, resulting in many of our staff staying with us for many years.

Eligibility

To access Benetas Springvale Respite Centre, you can be referred through your local Home and Community Care services, your local council, your local Aged Care Assessment Services, your doctor or via self referral.

Respite supports people to stay at home longer

We know that many older people are able to stay living in their own homes for longer because of the help their family and friends provide.

We also know that helping carers to remain happy and healthy is critical to ensure they can continue to support their loved one.

That's why respite services are so important. We provide carers with an opportunity for a break from their caring role, whilst the older people they care for are provided with the opportunity to engage in fun and stimulating activities in a caring environment and socialise with others their own age.

Benetas can step in at short notice, whether it's for a short period, overnight or extended stay ensuring they're well looked after at Springvale Respite Centre.

“Researchers have found that each additional hour of service received per week is associated with a 6 per cent lower risk of entry into permanent care. The more hours of home care services that people accessed, the lower their risk of entry into residential care.”

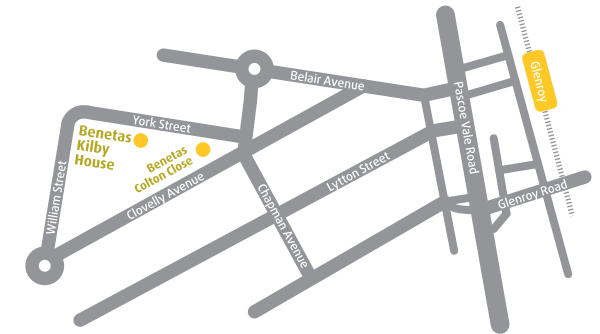

Dr Mikaela Jorgensen, lead researcher at Australian Institute of Health Innovation
